Subject: ISP AI Counter Comments to TRAI consultation paper on 'Tariff Issues of Telecom Services'

Dear Sir,

We welcome the move of TRAI to issue a Consultation Paper on the desirability of fixing a floor price for mobile services.

For the similar reasons, we would request TRAI to consider fixing Floor Prices for fixed/ wireline services/ FTTH Broadband services so that the ISPs investing heavily in creating this infrastructure are adequately protected in respect of return on investment made and from heavy predatory pricing.

We believe that the Authority would consider our comments in positive perspective and incorporate our concerns on the subject matter.

Looking forward for your favourable consideration.

Thanking you,

With Best Regards,  
For Internet Service Providers Association of India
