Dear Sir

It's encouraging that in the interest of the general public and small entrepreneurs, despite the objections of some stakeholders, PM WANI scheme is going to continue, and efforts are being made to remove the major bottleneck.

Things are nearly the same on the ground as were at the time of the 70th amendment, our comments on the 70th amendment, in trail mail may please be considered for 71st Amendment also.

Sir, we request to please expedite and ensure the availability of PDO Plans, a ground reality.

Thanks

Regards

Subject: Comment on the Draft of TTO, 2024 (70th Amendment)

To: <fa@traf.gov.in>

Dear Sir,

With due respect, we as PDOA and App Provider of PMWANI, thank TRAI for understanding and realizing the main cause of the current status of PMWANI and the plight of the stakeholders

Please find below our Comment

Sir, It is a long-awaited direction/correction. that is going to address the basic need of PDO.

No tariff plan for PDO is available, Over the last two years, we raised the issue at every platform, but nothing came up.

We are sitting on the stock of Access Points and accessories we purchased, struggling to find a way to make the PDO viable, but our efforts have gone in vain. this draft is a ray of hope for us. and we are not alone, there are so many like us, with stocks in hand, unable to sell or use profitably, disappointed but hopeful.

Once the tariff plan for PDO becomes available we shall start all over again. We shall immediately start working again on the establishment of our own model PDOs which was left in between due to the lack of a tariff plan for PDO. These model PDOs will demonstrate the working and viability of a PDO for small businessmen. regain their faith and start operations.

Sir, We believe that this order is going to give a big boost to the PMWANI Yojana both in terms of growth of number of PDO;s and internet uses.

Thanks

Regards
