

Mr. Ritu Ranjan Mittar,

Member (TRAI)

Shri Ritu Ranjan Mittar is an Indian Telecommunication Services Officer of 1985 Batch. With over 35 years of experience in the telecommunications industry, Sh. Mittar has worked on various projects related to the development and deployment of the telecommunications network. He has contributed to policy making in Department of Telecommunications, Government of India. He has also been involved in the development of various technical standards and specifications for the telecommunications industry, including Quantum, 5G, IoT, and M2M technologies. He is actively participating in the meetings of standards development organizations, viz., ITU, ETSI, APT, WRC, etc. and also interacts with other international fora, viz., 3GPP, ETSI, IETF, One M2M, etc. He held the important leadership position from India as Chairman of International Telecommunication Union (ITU-T) Study Group 11, which deals with the international standardization of *“Signalling requirements, protocols, test specifications and combating counterfeit telecommunication/ICT devices”*. He was Advisor and headed the Telecommunication Engineering Centre, the technical and standardization arm of Department of Telecommunications, Government of India. He also chaired the World Telecommunication Standardization Assembly (WTSA), 2024. At present, he is Member in Telecom Regulatory Authority of India (TRAI).
