Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

Preface

Telecom Regulatory Authority of India, vide the Standards of Quality of Service of Basic Telephone Service (Wireline) and Cellular Mobile Telephone Service Regulations, 2009 (7 of 2009) dated the 20th March, 2009, published in the Gazette of India Extraordinary Part-III Section 4 dated 23rd March, 2009, has laid down the 'Quality of Service' parameters applicable to the Basic telephone service (Wireline) and cellular mobile telephone service. These regulations are applicable to all the Basic Service Operators/ Unified Access Service Providers and Cellular Mobile Telephone Service providers, including BSNL and MTNL

Regulation No. 7 of the Standards of Quality of Service of Basic Telephone Service (Wireline) and Cellular Mobile Telephone Service Regulations, 2009 (7 of 2009) dated 20th March, 2009 and Sl. No. (ix) under regulation 3 of Quality of Service of Broadband Service Regulations, 2006 (11 of 2006) dated the 6th October 2006, have laid down the benchmarks for the parameter on customer perception of service to be achieved by service providers. The customer perception of service is to be assessed through customer satisfaction survey.

Telecom Regulatory Authority of India (TRAI) vide letter 304-10/2014-QoS dated 28th May 2014 has given a provisional extension to Mott MacDonald to carry out assessment of

Implementation and effectiveness of various regulations, directions and orders issued by TRAI

Telecom Regulatory Authority of India had from time to time issued a number of regulations, directions and orders in the interest of the consumers. The survey has assessed the implementation and effectiveness of these regulations, directions and orders, the details of which are as under

- The Telecom Commercial Communications Customer Preference Regulations, 2010
- Quality Of Service Of Broadband Service Regulations, 2006
- Telecom Consumers Protection Regulations, 2012
- Telecom Consumers Complaint Redressal Regulations, 2012
- The Standards Of Quality Of Service Of Basic Telephone Service (Wire-line) And Cellular Mobile Telephone Service Regulations, 2009
- Telecommunication Mobile Number Portability Per Port Transaction Charge And Dipping Charge Regulations, 2009

Customer perception of service provider

- The basic objective of the consumer perception survey was to gauge the subscriber feedback on Quality of Services by way of primary survey and comparing them with quality of service benchmarks stipulated by Telecom Regulatory Authority of India.
- The West Zone comprises of 4 Circles Gujarat, Madhya Pradesh / Chhattisgarh, Mumbai,
 Maharashtra / Goa (excluding Mumbai). This report presents the results of the survey conducted for the Rest of Maharashtra Circle.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

Executive Summary

Rest of Maharashtra: Circles & Coverage Areas

In the second phase of the survey, Mott MacDonald had to cover the below mentioned circles and regions.* The selection of the circles and particularly regions has been done on the basis of several parameters including importance of districts in the states, urban/ rural demographics as well as the terms and conditions stipulated in the tender document and in consultation with TRAI.

Table 0.1: Circles & Coverage Area

Rest of Maharashtra: Sample Design

The sample design for the ongoing survey in line with the scope of work is as follows

Sample Mix & Mode of Survey

Service Category	Sampling Methodology	Mode of Survey
Basic Telephone Service	The sample for basic telephone service would be evenly spread in 5% of the exchanges of each Basic Service Operator (BSO). These 5% of the exchanges shall be evenly spread over 10% of the Short Distance Charge Areas (SDCAs) with each BSO. Wherever possible, 30% of the exchanges shall be rural.	Rural - 100 % face to face Urban - 50% face to face, 50% Telephonic
Cellular Mobile	The sample for the cellular telephone service subscribers shall be evenly spread over in 10% of the district headquarters of a service area. The sample must have at least 30 % of the customers from rural areas.	Rural - 100 % in-person Urban - 50% in-person, 50% Telephonic
Broadband	The sample for the broadband service subscribers shall be evenly spread over in areas served by 10% of the points of presence (POPs) of each service providers. Wherever possible the sample shall have 30% of the customers from the rural area.	Rural - 100 % in-person Urban - 50% in-person, 50% Telephonic / Online

Rest of Maharashtra Circle: Comparisons with Quality of Service Benchmarks

The performance compliance of the various service providers is as given below

Rest of Maharashtra: Basic Wire-Line

Parameters	Benchmark	BSNL	Tata Tele	Reliance	Airtel
service					
Customers satisfied with billing performance - Prepaid	≥95%	-	-	-	-
Customers satisfied with billing performance - Postpaid	≥95%	94%	96%	90%	96%
Customers satisfied with help services including grievance redressal	≥90%	89%	88%	83%	94%
Customers satisfied with network performance, reliability and availability	≥95%	92%	94%	90%	96%
Customers satisfied with maintainability	≥95%	90%	90%	93%	94%
Customers satisfied with supplementary and value added services	≥90%	85%	91%	85%	92%
Customers satisfied with overall service quality	≥90%	92%	92%	87%	96%
		>= Benchmark	k		

Quality of Service Benchmarks

- The survey results show that all service providers have met the quality of service benchmarks for the provision of service. While in case of the other parameters, few of the service providers could not to meet the benchmarks. In many cases service providers have marginally missed to achieve the benchmark.
- Help services is the only parameter wherein many service providers have failed to achieve the stipulated benchmark. Airtel has achieved the benchmark with percentile more than 94% of the customers expressing satisfaction on the parameter.
- Airtel has registered the highest satisfaction level on the overall quality of service benchmark with around 96% of the consumers being satisfied on the parameter. Except Reliance, all other service providers have been able to achieve the benchmark level of satisfaction 90%.
- Based on the qualitative inputs from field staff and general observation during the survey period the consultants have observed that the satisfaction levels for the Supplementary Services and Value Added Services parameter are a bit lower as compared to satisfaction percentiles for other parameters.

Assessment of Various Regulations

- The level of satisfaction with the effectiveness of blocking of unsolicited commercial calls/SMSs is moderate across all service providers. Airtel have registered satisfaction level more than 95% while Reliance, Tata and BSNL have a low satisfaction level between 72-88% on the parameter.
- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number with around 97% of the consumers being aware of it. Few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

		>= Be	nchmark						

Quality of Service Benchmarks

- The survey results show that all service providers have met the quality of service benchmarks for the provision of service, Billing Performance-Pre-Paid, and Overall Quality parameter. While in case of the other parameters, few of the service providers could not to meet the benchmarks. In many cases service providers have marginally missed to reach the benchmark.
- The satisfaction levels for the Help Services parameter, except BSNL, all service providers met the benchmarks, with highest level of satisfaction in case of Vodafone and the lowest being 90% in case of Reliance.
- Except Idea, Bharti Airtel and Vodafone, all other service providers have marginally missed the benchmark in case of satisfaction with respect to Mobile Data / Internet Services.
- The service providers have performed well in cases of rest of the benchmarks such as Billing Performance: Post-Paid and Network with most of the service providers achieving or nearing the benchmark on these parameters.
- Based on the qualitative inputs from field staff and general observation during the survey period the consultants have observed that the satisfaction levels for the Supplementary services and Value Added Services are comparatively lower as compared to satisfaction percentiles for other parameters.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

Assessment of Various Regulations

- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number with around 96% of the consumers being aware of it. Few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal.
- The level of satisfaction with the effectiveness of blocking of unsolicited commercial calls is well achieved across all service providers with the satisfaction percentiles in the range of 85-96% for all the service providers.
- Very few pre-paid customers (less than 5%) have requested for an item-wise usage bill for their connection. Based on the qualitative inputs from field staff the consultants have observed that the awareness amongst the pre-paid customer with reference to this option with them is quite low.
- Number portability is observed highest in case of Vodafone followed by Idea and Reliance.

		>= Be	-= Benchmark											

Quality of Service Benchmarks

- Tata Communication, Bharti Airtel, Five Network, Indusland Media have achieved the benchmarks for all the parameters in the broadband category.
- All the service providers have met the benchmarks for the provision of service parameter while in the other parameter few of the service providers have missed the benchmark. Many service providers have marginally missed the benchmark on many parameters.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

The satisfaction levels for the Help Services and Supplementary Services are comparatively lower as compared to other parameters. Tata, Indusland, Five Network, and Airtel have met the benchmark for the help service parameter while the rest have satisfaction percentiles in the range of 82-89%. However all service providers have met the Overall Customer Satisfaction benchmark of 85%.

Assessment of Various Regulations

- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number with around 97% of the consumers being aware of it. Very few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal and efforts should be made in generating awareness with respect to Appellate Authority and Web Based Monitoring System.
- The levels of customers being satisfied with the manner in which their complaint with the toll free consumer care number was addressed is moderate with most of the service providers having satisfaction levels in the range of 66-88%.
- Customer satisfaction levels with respect to the information provided by the service provider under the fair usage policy (FUP) and the facility to measure the broadband connection speed provided by the service provider is more than 70% in case of all the service providers.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

1 Introduction

Telecom Regulatory Authority of India, vide the Standards of Quality of Service of Basic Telephone Service (Wireline) and Cellular Mobile Telephone Service Regulations, 2009 (7 of 2009) dated the 20th March, 2009, published in the Gazette of India Extraordinary Part-III Section 4 dated 23rd March, 2009, has laid down the 'Quality of Service' parameters applicable to the Basic telephone service (Wireline) and cellular mobile telephone service. These regulations are applicable to all the Basic Service Operators/ Unified Access Service Providers and Cellular Mobile Telephone Service providers, including BSNL and MTNL

Regulation No. 7 of the Standards of Quality of Service of Basic Telephone Service (Wireline) and Cellular Mobile Telephone Service Regulations, 2009 (7 of 2009) dated 20th March, 2009 and Sl. No. (ix) under regulation 3 of Quality of Service of Broadband Service Regulations, 2006 (11 of 2006) dated the 6th October 2006, have laid down the benchmarks for the parameter on customer perception of service to be achieved by service providers. The customer perception of service is to be assessed through customer satisfaction survey.

Telecom Regulatory Authority of India (TRAI) vide letter 304-10/2014-QoS dated 28th May 2014 has given a provisional extension to Mott MacDonald to carry out assessment of

implementation and effectiveness of various regulations, directions and orders issued by TRAI

Telecom Regulatory Authority of India had from time to time issued a number of regulations, directions and orders in the interest of the consumers. The survey has assessed the implementation and effectiveness of these regulations, directions and orders, the details of which are as under

- The Telecom Commercial Communications Customer Preference Regulations, 2010
- Quality Of Service Of Broadband Service Regulations, 2006
- Telecom Consumers Protection Regulations, 2012
- Telecom Consumers Complaint Redressal Regulations, 2012
- The Standards Of Quality Of Service Of Basic Telephone Service (Wire-line) And Cellular Mobile Telephone Service Regulations, 2009
- Telecommunication Mobile Number Portability Per Port Transaction Charge And Dipping Charge Regulations, 2009
- Customer perception of service provider through surveys in West Zone. The West Zone comprises
 of 4 Circles Rest of Maharashtra, Madhya Pradesh / Chhattisgarh, Mumbai, Maharashtra / Goa
 (excluding Mumbai).
 - The basic objective of the consumer perception survey was to gauge the subscriber feedback on Quality of Services by way of primary survey and comparing them with quality of service benchmarks stipulated by Telecom Regulatory Authority of India.

1.1 Circles & Coverage Areas

In the second phase of the survey, Mott MacDonald had to cover the below mentioned circles and regions.* The selection of the circles and particularly regions has been done on the basis of several parameters including importance of districts in the states, urban/ rural demographics as well as the terms and conditions stipulated in the tender document and in consultation with TRAI.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

1.2 Sample Design

The sample design for the ongoing survey in line with the scope of work is as follows

Table 1.2: Sample Mix & Mode of Survey

Service Category	Sampling Methodology	Mode of Survey
Basic Telephone Service	The sample for basic telephone service would be evenly spread in 5% of the exchanges of each Basic Service Operator (BSO). These 5% of the exchanges shall be evenly spread over 10% of the Short Distance Charge Areas (SDCAs) with each BSO. Wherever possible, 30% of the exchanges shall be rural.	Rural - 100 % face to face Urban - 50% face to face, 50% Telephonic
Cellular Mobile	The sample for the cellular telephone service subscribers shall be evenly spread over in 10% of the district headquarters of a service area. The sample must have at least 30 % of the customers from rural areas.	Rural - 100 % in-person Urban - 50% in-person, 50% Telephonic
Broadband	The sample for the broadband service subscribers shall be evenly spread over in areas served by 10% of the points of presence (POPs) of each service providers. Wherever possible the sample shall have 30% of the customers from the rural area.	Rural - 100 % in-person Urban - 50% in-person, 50% Telephonic / Online

The consultants had covered the Rest of Maharashtra and Mumbai circles in the second half yearly period. In the first half yearly period the consultants had to covered Gujarat and Madhya Pradesh circles. This report presents the results of the survey conducted for the Rest of Maharashtra Circle.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

2 Objective of the Study

The basic objectives of the study as per the Terms of Reference are as follows

- (i) Assess customer perception of telecom services
- (ii) Assess implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers

2.1 Assessment of customer perception of telecom services

The parameters and benchmarks relating to customer perception of service for Basic Telephone Service (wire-line), Cellular Mobile Telephone Services and Broadband Service are provided in the Standards of Quality of service of Basic Telephone Service (wire-line) and Cellular Mobile Telephone Service Regulations, 2009 and Quality of Service of Broadband Service Regulations, 2006.

The parameters and benchmarks for Basic Telephone Service (wire-line) and Cellular Mobile Telephone Service as defined in the above mentioned regulations are as below.

Parameters and Benchmarks Telecom Services

Sr. No.	Parameter	Basic Tele Service	Cellular Service	Broadband Service
1	Customers satisfied with the provision of service	≥90%	≥90%	>90%
2	Customers satisfied with the billing performance	≥95%	≥95%	>90%
3	Customers satisfied with network performance, reliability and availability	≥95%	≥95%	>85%
4	Customers satisfied with maintainability	≥95%	≥95%	>85%
5	Customers satisfied with supplementary and value added services	≥90%	≥90%	>85%
8	Customers satisfied with help services including customer grievance redressal	≥90%	≥90%	>90%
9	Customers satisfied with overall service quality	≥90%	≥90%	>85%

The survey intended to check the compliance of these benchmarks on several parameters by the service providers.

2.2 Assessment of implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers

Telecom Regulatory Authority of India had from time to time issued a number of regulations, directions and orders in the interest of the consumers. The survey intended to assess the implementation and effectiveness of these regulations, directions and orders, the details of which are as under

- The Telecom Commercial Communications Customer Preference Regulations, 2010
- Quality Of Service Of Broadband Service Regulations, 2006
- Telecom Consumers Protection Regulations, 2012
- Telecom Consumers Complaint Redressal Regulations, 2012
- The Standards Of Quality Of Service Of Basic Telephone Service (Wireline) And Cellular Mobile Telephone Service Regulations, 2009
- Telecommunication Mobile Number Portability Per Port Transaction Charge And Dipping Charge Regulations, 2009

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

3 Methodology

3.1 Questionnaire Design Methodology

TRAI via its Terms of Reference as stated in the tender document had given basic guidelines for the preparation of an appropriate research tool for the current study. Subsequently, the need for a scientific service quality model as a basis for the proposed study was discussed at length. The questionnaire has been designed on the basis of the objectives of the overall study and on the proposed service quality model used for the current study

3.1.1 Service Quality Model

Parasuraman et al, (1988) had presented a model known as SERVQUAL to measure quality in the service sector. They introduced two broad dimension assurance and empathy making a fivefold model (tangibles, reliability, responsiveness, assurance and empathy) which they used as the basis for their service quality measurement tool, SERVQUAL. These dimensions can be defined as:

- Tangibility: Physical facilities, equipment and appearance of service firm's employees.
- Reliability: Performing the promised services at stated level.
- Responsiveness: Providing prompt services and willingness to help customers.
- Assurance: Knowledge and courtesy of employees and their ability to inspire trust and confidence in the firm.
- Empathy: Caring and personalized attention to its customers.

They suggested that the service quality should be measured as the difference or gap between consumer expectations about the service and the actual perceived performance (i.e. the disconfirmation paradigm). The concept of measuring level of service quality in terms of expectations and perceptions using SERVQUAL gap score has been proved very useful. Parasuraman, argued that SERVQUAL can be used in any kind of service industry after some industry specific modification.

After SERVQUAL, presented by Parasuraman, much of the criticism levied against it. For example, Carman argued that the five dimensions of SERVQUAL could not be generic measure for every service industry. He found that some of the items loaded differently when compared to cross industry analysis. As mentioned earlier, Parasuraman combined understanding and access component into single component i.e empathy due to high correlation count between them. Carman finds it inappropriate combination in his research. Cronin and Taylor also criticized the SERVQUAL model due to its operational deficiencies. They argued that only perception portion can best describe the satisfaction level of customers as compared to difference score of perception minus expectations. As a result, they developed an alternative measurement tool named 'SERVPERF' in which they nullify the expectation portion of the original SERVQUAL model. They argued that only the performance dimension can better predict the behavioural intention of the customers.

In the present study, 30% of the sample had to be covered from the rural area. The rural consumers are not at the same level of awareness with the urban consumers. For them understanding of expectation with the service may not be at the same level as urban consumers. Secondly, in the urban area 50% of the survey had to be administered through telephonic interviews. Administering of SERVQUAL instrument would require a longer duration of time which might not have been feasible

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

through telephonic interview. Keeping these concerns in mind, SERVPERF model had been used, wherein only performance based perception had to be taken in to account.

In line with the TRAI regulations, three more dimensions were included, namely, Network/technical quality, Economy and Convenience, in addition to the five dimensions (tangibles, reliability, responsiveness, assurance and empathy) used in the SERVQUAL and SERVPERF models. These three dimensions can be defined as

- Network/technical quality: Network availability, reliability and performance
- Economy: How economical is the use of mobile/broadband/basic wire line service
- Convenience: Ease of approaching the service provider for any particular service

The dimensions and the corresponding variables to be covered in the study are shown in the table below.

Table 3.1: Dimensions and Variables Used in the Study

Code	Variables	Parameter
	Tangibility (TA)	
TA 1	Availability of suitable plans	Service Provision
TA 2	Provision of information on SIM Card, recharge cards etc.	Service Provision
TA 3	Provision of visually attractive material – starter pack, reload card	Service Provision
TA 4	Provision of variety of entertainment facility – apps etc.	Supplementary services
	Reliability (RL)	
RL 1	Provision of service accuracy and dependable	Billing
RL 2	Transparent & Accuracy of bill/ charges	Billing
RL 3	Customer friendly staff	Help services
	Responsiveness (RS)	
RS 1	Provision of timely service	Service Provision
RS 2	Effective handling of downtime (maintaining a service)	Maintainability
RS 3	Prompt handling of complaint	Grievance redress
RS 4	Effective grievance redressal mechanism, customer service	Grievance redress
	Assurance (AS)	
AS 1	Competency of the staff/ services/ problem solving ability	Help services
AS 2	Feedback mechanism	Grievance redress
	Convenience (CV)	
CV 1	Ease of access to Customer help line numbers	Help services
CV 2	Ease of activating & deactivating any service (VAS)/ any other	Supplementary services
CV 3	Ease of registering for unwanted calls/ SMS	Supplementary services
	Empathy (EM)	
EM 1	Provision of service manual, complete tariff plan at the time of subscription	Service Provision
EM 2	Having convenient periods and terms for activation, recharge and account suspension, free call times	Billing
EM 3	Ease of taking a connection	Service Provision
EM 4	Ease of recharging process (pre-paid)	Billing
EM 5	24 x 7 customer care service	Help services

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

Code	Variables	Parameter
	Network/ Technical Quality (NT)	
NT 1	Availability of signal in your area (cell)/ working phone(basic)/ uptime (broadband)	Network Performance
NT 2	Ability to make and receive call / uninterrupted	Network Performance
NT 3	Clear Voice quality	Network Performance
	Economy (EC)	
EC 1	Availability of recharging cards in various denomination	Billing
EC 2	Economical call charges per minute/ second	Billing
	Total variables = 26	

3.1.2 Questionnaire Design

In line with the objectives of the study and based on the selected service quality model the questionnaire has been divided into three major portions as under

- Customer Details including name, gender, age, occupation, address, service provider, user type
 and usage type to build a basic profile of the surveyed customer.
- Performance Perception of Attributes Related To Service Quality Parameters which includes drawing inputs on the attributes related to quality parameters as stated in "The Standards of Quality of Service of Basic Telephone Service (Wire-line) and Cellular Mobile Telephone Service Regulations, 2009"and "Quality of Service of Broadband Service Regulations, 2006".
- Implementation and Effectiveness of various Regulations and Directions issued by TRAI
 which includes assessment of implementation and effectiveness of various regulations specified as
 under
 - ✓ The Telecom Commercial Communications Customer Preference Regulations, 2010.
 - ✓ Telecom Consumers Protection Regulations, 2012.
 - ✓ Telecom Consumers Complaint Redressal Regulations, 2012.
 - ✓ Telecommunication Mobile Number Portability Per Port Transaction Charge and Dipping Charge Regulations, 2009.

The questions except for those pertaining to contact details of the respondent were closed ended questions. The questions were basically of two types as under

- Dichotomous Questions (Yes or No) which were intended to address the research question or were meant to filter responses to subsequent questions
- Rating Questions (Scale of 1 to 7 wherein 1 stood for "Extremely Dissatisfied" and 7 stood for "Extremely Satisfied") which were intended to fetch the satisfaction level on specific service attributes related to quality of service parameters.

3.2 Analysis Methodology

TRAI has clearly laid down its benchmarks on broad parameters for Basic Service (Wireline), Cellular Mobile and Broadband services. In the case of Basic Service (Wireline) and Basic (Wireless) & Cellular Mobile services, benchmark on satisfaction parameters such as provision of services, supplementary/ value added services, help services and overall service quality has been fixed at \geq 90% and for other parameters such as network performance, maintainability and billing at \geq 95%. Whereas, in the case of Broadband services, the benchmarks on three parameters – provision of services, billing performance

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

and help services – has been fixed at \geq 90%. In the case of other four parameters – network performance, maintainability, overall satisfaction and supplementary services – the benchmark has been set at \geq 85%.

Therefore, comparisons with benchmark set up by the TRAI on various parameters for Basic, Cellular and Broadband services has been contrasted with the achieved level of percentage of satisfied consumers by various services providers of Basic, Cellular and Broadband services on the TRAI identified service parameters.

The scale suggested measures the satisfaction and dissatisfaction level of consumers. Hence when calculating the satisfaction scores; we consider the percentage of consumers actually satisfied with the service providers. Either of the following 2 approaches was considered to measure the satisfaction scores-

- Option 1: Computation based on Active Satisfaction: Score of Top 3 boxes in the 7 point scale (where 1 = "Extremely dissatisfied" and 7= "Extremely Satisfied") are calculated to measure the satisfaction score
- Option 2: Computation based on Non- Active Dissatisfaction: Here, Top 4 box scores are taken into
 account thereby not considering the respondents who are actively dissatisfied with the services.
 The neutral score of 4 is therefore considered as not dissatisfied.
- Option 1 i.e. 'Computation based on Active Satisfaction' has been used for the comparison with benchmarks for the current study.

3.3 Sampling Methodology

As per the TOR the sample for Basic Telephone Service (wireline) subscribers had to be evenly spread over in 5% (five per cent) of the exchanges of each BSOs in the circle. The above stated 5% (five per cent) exchanges had to be evenly spread over 10% (ten per cent) of SDCAs with each BSO. The 5% (five per cent) exchanges had to be covered both in urban and rural category. Wherever possible, at least 30% of these exchanges had to be rural exchanges.

As per the TOR the sample for cellular mobile telephone service subscribers had to be evenly spread over 10% (ten per cent) of district headquarters of a service area where the services are commissioned. The sample had to also cover surrounding areas of the district headquarters, including rural areas and at least the sample size should have 30% customers from rural areas.

As per the TOR the sample for broadband service subscribers had to be evenly spread over the areas served by 10% (ten per cent) of the Points of Presence (POPs) of each service provider in each service area. Wherever possible, the sample size should have 30% customers from rural areas.

The consultants have conducted the survey in the below mentioned regions in the Rest of Maharashtra Circle as per the sample design submitted by IMM and subsequently approved by TRAI.

Table 3.2: Sample Size Distribution

Circle	Number of Districts	Basic Wire-Line / Cellular / Broadband Districts		
		Pune		
Doot of Moharachter	24	Nashik		
Rest of Maharashtra	34	Aurangabad		
		Goa		

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

3.4 Mode of Conducting Survey

The mode of survey as stated in the terms of reference has been followed by the consultants. The details of the same is as under

- Basic Telephone Service: For rural sample 100% of the observations are based on personal interview. For urban sample 50% of the observations are based on personal interview whereas the rest 50% observations are based on Telephonic Interviews.
- Cellular Service: For rural sample 100% of the observations are based on personal interview. For
 urban sample 50% of the observations are based on personal interview whereas the rest 50%
 observations are based on Telephonic Interviews.
- Broadband Service: For rural sample 100% of the observations are based on personal interview. For urban sample 50% of the observations are based on personal interview whereas the rest 50% observations are based on e-mail/telephonic interviews or by developing web based applications.

3.5 Sample Size

The sample size to be considered for the present study has been given in the terms of reference. The consultants have followed the sample plan as given in the TOR except for few isolated cases wherein the sample size could not be achieved due to limited subscriber base of the service providers. The service category-wise sample plan as per TOR and achieved sample is as given in the tables below.

Table 3.3: Basic Wire-Line Sample Size

Circle	Service Provider	Sample Size As Per TOR	Sample Size Achieved	
Rest of Maharashtra	BSNL	1067	1067	
Rest of Maharashtra	Tata	1067	1067	
Rest of Maharashtra	Reliance	1067	544	
Rest of Maharashtra	Bharti Airtel	1067	1067	
	TOTAL	4268	3745	

^{*} After the best endeavours of the consultant, due to limited number of subscribers, the consultant was able to achieve 544 samples.

Table 3.4: Cellular Sample Size

Circle	Service Provider	Sample Size As Per TOR	Sample Size Achieved
Rest of Maharashtra	BSNL	1067	1067
Rest of Maharashtra	Tata	1067	1067
Rest of Maharashtra	Reliance	1067	1067
Rest of Maharashtra	Idea	1067	1067
Rest of Maharashtra	Vodafone	1067	1067
Rest of Maharashtra	Bharti Airtel	1067	1067
Rest of Maharashtra	Uninor	1067	1067
Rest of Maharashtra	Aircel	1067	1067
	TOTAL	8536	8536

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

Table 3.5: Broadband Services Sample Size

Circle	Service Provider	Sample Size As Per TOR	Sample Size Achieved
Rest of Maharashtra	Bharti Airtel	1067	1067
Rest of Maharashtra	Broadband Pacenet	1067	1067
Rest of Maharashtra	BSNL	1067	1067
Rest of Maharashtra	D-Vois	1067	1067
Rest of Maharashtra	Five Network	1067	1067
Rest of Maharashtra	Hathway	1067	1067
Rest of Maharashtra	Reliance	1067	967*
Rest of Maharashtra	Spectra Net	1067	1067
Rest of Maharashtra	Syscon Infoway	1067	1067
Rest of Maharashtra	Tata Communication	1067	1067
Rest of Maharashtra	Tata Tele	1067	1067
Rest of Maharashtra	You Broadband	1067	1067
Rest of Maharashtra	Indusland Media	100#	44#
	TOTAL	12904	12748

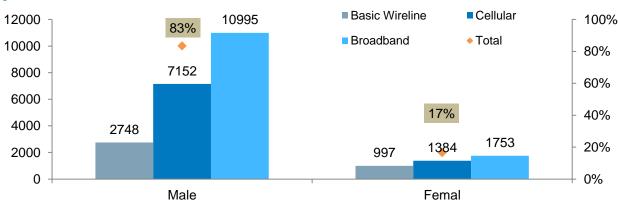

^{*}After the best endeavours of the consultant, due to limited number of subscribers, the consultant was able to achieve 967 samples.

3.6 Sample Characteristics

The sample characteristics for the survey done under the first phase in Rest of Maharashtra Circle is as under

3.6.1 Gender

Figure 3.1: Gender Mix

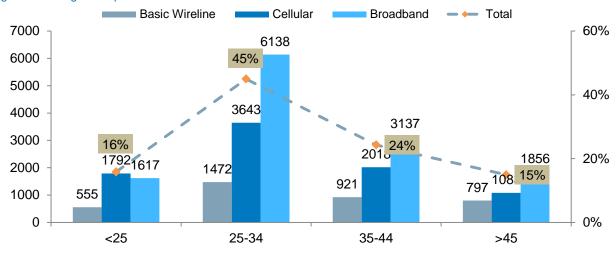

^{*} After the best endeavours of the consultant and due to limited presence of the subscribers (only 100 subscribers in Nashik District), the consultant was able to achieve 44 samples.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

3.6.2 Age

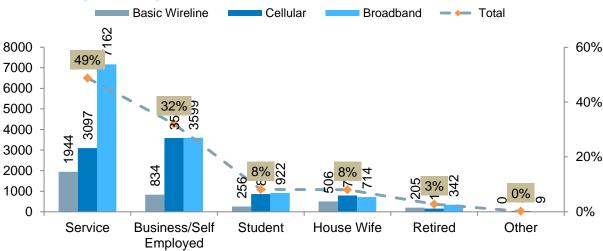

Figure 3.2: Age Group Mix

- It can be observed that the age group of 25-34 is leading in all cases with respect to the survey conducted.
- The proportion of age group of 25-34 is 45% in total sample size followed by 35-44 years, less than 25 years and greater than 45 years.

3.6.3 Occupation

Figure 3.3: Occupation & Sample size

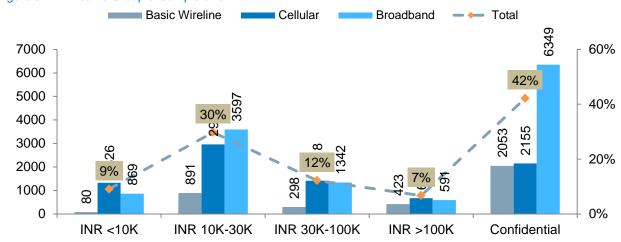

- It can be observed that the service category respondents are leading in all cases with respect to the survey conducted.
- The proportion of service category respondents is 49% in total sample size followed by Business/Self Employed.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

3.6.4 **Income Group**

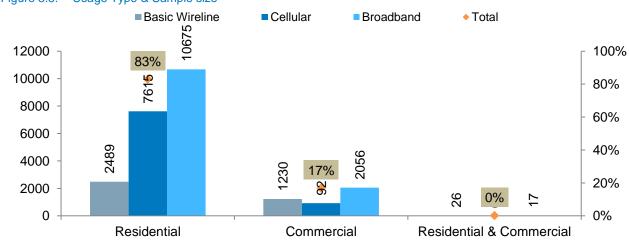

Figure 3.4: Income Group & Sample size

It can be observed that majority of the respondents in case of all three services category is from income group Rs. 10,000 to 30,000. However there are in total 42% respondents who have not informed their income.

3.6.5 **Usage Type**

Figure 3.5: Usage Type & Sample size

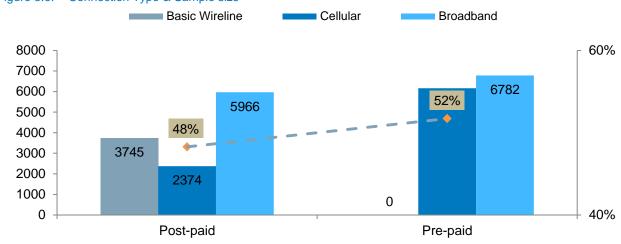

It can be observed that 83% respondents from all services have Residential usage of the service.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

3.6.6 Connection Type

Figure 3.6: Connection Type & Sample size

It can be observed that more than 52% respondents have pre-paid connection. This is because of cellular service as it can be inferred from the above graph that there are zero respondents from pre-paid service of basic wireline service.

Majority of the cellular service consumers have prepaid connection while almost 50% consumers of broadband services have prepaid and post-paid connections.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

4 Customer Perception of Telecom Service

The parameters and benchmarks relating to customer perception of service for basic telephone service (wireline), cellular mobile telephone services and broadband service are provided in the Standards of Quality of service of basic telephone service (wireline) and cellular mobile telephone service regulations, 2009 and Quality of service of Broadband service regulations, 2006.

In line with these regulations the performance compliance of various service providers against the set parameters and benchmarks is as given below.

4.1 Rest of Maharashtra Circle - Performance Compliance

4.1.1 Basic Wire-line Service

The performance compliance of the service providers for the basic wire-line service is as given below

Table 4.1: Performance Compliance-Basic-Wire line Service (Rest of Maharashtra Circle)

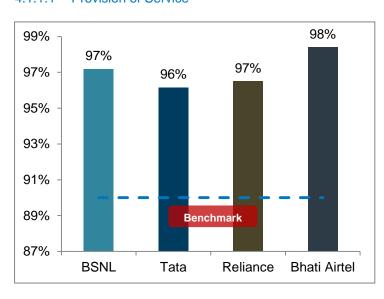

·		V		*	
Parameters	Benchmark	BSNL	Tata Tele	Reliance	Airtel
Customers satisfied with provisioning of service	≥90%	97%	96%	97%	98%
Customers satisfied with billing performance - Prepaid	≥95%	-	-	-	-
Customers satisfied with billing performance - Postpaid	≥95%	94%	96%	90%	96%
Customers satisfied with help services including grievance redressal	≥90%	89%	88%	83%	94%
Customers satisfied with network performance, reliability and availability	≥95%	92%	94%	90%	96%
Customers satisfied with maintainability	≥95%	90%	90%	93%	94%
Customers satisfied with supplementary and value added services	≥90%	85%	91%	85%	92%
Customers satisfied with overall service quality	≥90%	92%	92%	87%	96%

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

4.1.1.1 Provision of Service

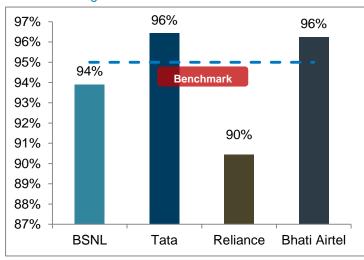

■ The benchmark for the Provision of Service parameter is that of >90% of the customers being satisfied on the parameter. All the four service providers have met the benchmark for the provision of service parameter. In case of Bharti Airtel 98% of the customers, in case of BSNL and Tata 97% and 96% respectively and in case of Reliance 97% of the customers are satisfied.

Table 4.2: Provision of Service

Parameter	Benchmark	BSNL	Tata	Reliance	Bharti Airtel
Customer Satisfied With Provision of Service	>90%	97%	96%	97%	98%

Source: IMM Analysis

4.1.1.2 Billing Performance-Post-Paid

■ The benchmark for the Billing Performance parameter is that of >95% of the customers being satisfied on the parameter. In case Bharti Airtel and Tata have met the benchmark for the Billing Performance parameter. in case of BSNL 94% of the customers and in case of Reliance 90% of the customers are satisfied on the parameter.

Table 4.3: Billing Performance: Post-Paid – Rest of Maharashtra Circle

Parameter	Benchmark	BSNL	Tata	Reliance	Bharti Airtel
Customer Satisfied With Billing Performance – Post-Paid	>95%	94%	96%	90%	96%

Source: IMM Analysis

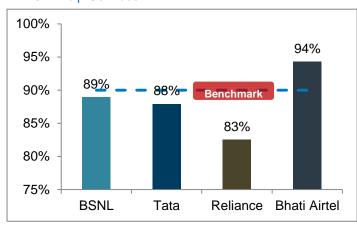

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

The break-up of responses with respect to major complaints related to billing is given below.

Table 4.4: Break-up of complaints related to billing – Post Paid

Table 1.1. Broak up of complainte fedicion to binning 1. oct.				Bharti
	BSNL	Tata	Reliance	Airtel
Non – Receipt of Physical / E-copy of Bill	7%	6%	9%	1%
Timely receipt of Bill	7%	7%	2%	0%
Information not received about change in Plan Charges	1%	1%	1%	0%
Excess bill	3%	4%	1%	0%
Incomplete details	1%	1%	4%	5%
Lack of payment option	0%	0%	4%	0%
Other	0%	0%	0%	0%
None	80%	79%	79%	94%

4.1.1.3 Help Services

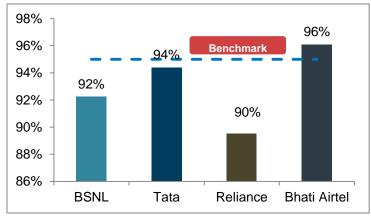

■ The benchmark for the Help Services parameter is that of >90% of the customers being satisfied on the parameter. Airtel met the benchmark for the parameter while the others have not. In case of Airtel 94% of the customers are satisfied. While BSNL, Tata and Reliance have not been able to meet the parameter by marginal difference of 1%, 2% and 7% respectively.

Table 4.5: Help Services – Rest of Maharashtra Circle

Parameter	Benchmark	BSNL	Tata	Reliance	Bharti Airtel
Customer Satisfied With Help Services	>95%	89%	88%	83%	94%

4.1.2.4 Help Services

The benchmark for the Help Services parameter is that of >90% of the customers being satisfied on the parameter. Except BSNL, all other service provider has met the benchmark for the parameter. BSNL has missing the parameter marginally.

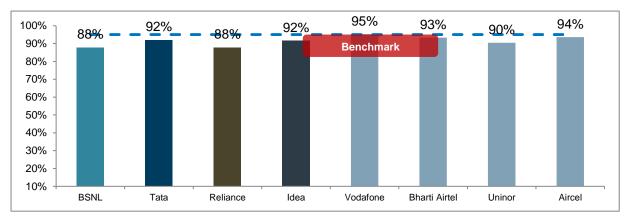

Table 4.16: Help Services -Cellular Service (Rest of Maharashtra Circle)

Parameter	Benchmark	BSNL	Tata	Reliance	Idea	Vodafone	Bharti Airtel	Uninor	Aircel
Help Services	>95%	85%	94%	90%	93%	95%	93%	92%	93%

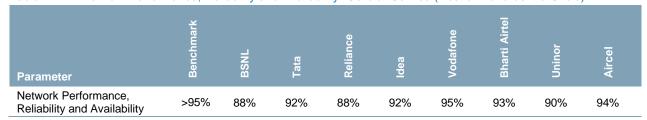

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

4.1.2.5 Network Performance, Reliability and Availability

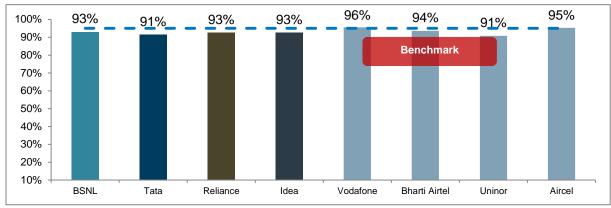

The benchmark for the Network Performance, Reliability and Availability parameter is that of >95% of the customers being satisfied on the parameter. Except Vodafone, no other service provider has met the parameter. However the satisfaction is in the range of 88-94%.

Table 4.17: Network Performance, Reliability and Availability -Cellular Service (Rest of Maharashtra Circle)

4.1.2.6 Maintainability

The benchmark for the Maintainability parameter is that of >95% of the customers being satisfied on the parameter. Vodafone and Aircel have met the benchmark parameters. Others have marginally missed the benchmark satisfaction level.

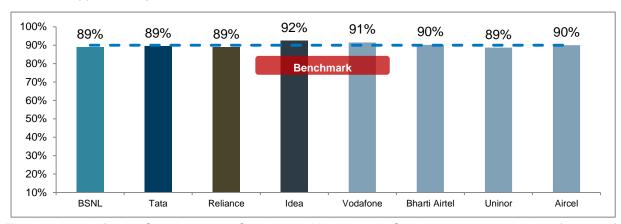

Table 4.18: Maintainability -Cellular Service (Rest of Maharashtra Circle)

Table 1110. Maintainabili	ty Contain Con	1100 (1100	or or iviaria	aoria o	1010)

4.1.3.4 Help Services

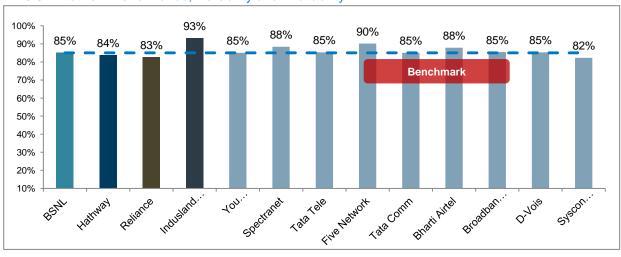

The benchmark for the Help Services parameter is that of >90% of the customers being satisfied on the parameter. The satisfaction levels for the Help Services are low as compared to other parameters. Indusland, Five Network, Tata Communication, and Bharti Airtel have met the benchmark for the parameter. The satisfaction levels of the other service providers are in the range of 82-89%.

Table 4.29: Help Services -Broadband Service (Rest of Maharashtra Circle)

4.1.3.5 Network Performance, Reliability and Availability

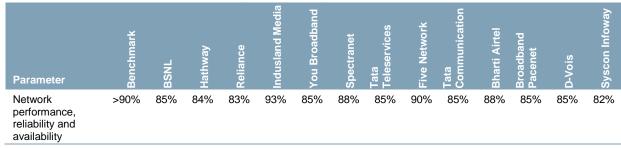

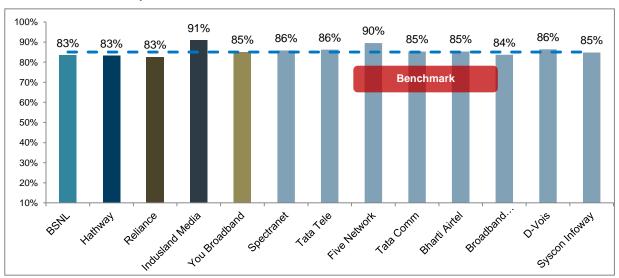

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

The benchmark for the Network Performance, Reliability and Availability parameter is that of >85% of the customers being satisfied on the parameter. Except Hathway, and Syscon Infoway, all service providers have met the benchmark for the parameter. Indusland has highest score of 93% followed by Five Network.

Table 4.30: Network performance, reliability and availability-Broadband Service (Rest of Maharashtra Circle)

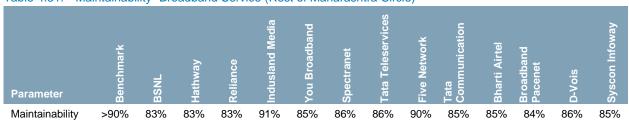

4.1.3.6 Maintainability

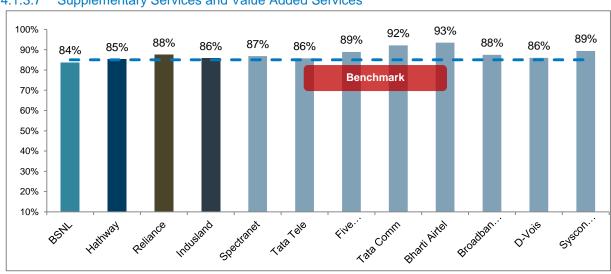

The benchmark for the Maintainability parameter is that of >85% of the customers being satisfied on the parameter. Indusland, You Broadband, Spectranet, Tata Teleservices, Five Network, Tata Communication, Airtel, and D-Vois have met the benchmark for the Maintainability parameter. The satisfaction levels of the other service providers are in the range of 83-85%.

Table 4.31: Maintainability -Broadband Service (Rest of Maharashtra Circle)

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

4.1.3.7 Supplementary Services and Value Added Services

The benchmark for the Supplementary Services and Value Added Services parameter is that of >85% of the customers being satisfied on the parameter. Except, BSNL, all service provider has met the benchmark on this parameter. The satisfaction levels of all the service providers are in the range of 84-93%.

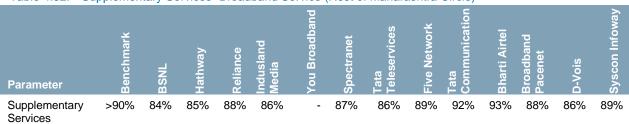

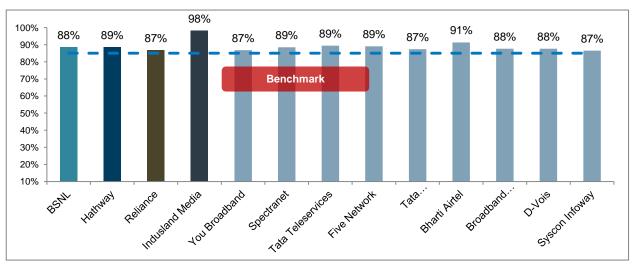

Table 4.32: Supplementary Services -Broadband Service (Rest of Maharashtra Circle)

Overall Quality of Telephone Service 4.1.3.8

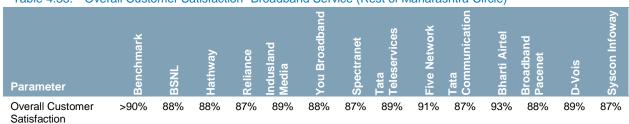

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

The benchmark for the Overall Quality of Telephone Service parameter is that of >85% of the customers being satisfied on the parameter. All of the service providers have met the benchmark for the parameter. Highest level of satisfaction is in case of Airtel.

Table 4.33: Overall Customer Satisfaction -Broadband Service (Rest of Maharashtra Circle)

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

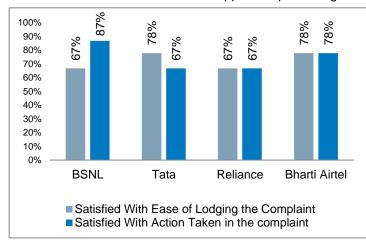

5 Assessment of TRAI Regulations and Directions

5.1 Basic Wire Line Services

5.1.1 The Telecom Commercial Communications Customer Preference Regulations, 2010

The Telecom Commercial Communications Customer Preference Regulations, 2010 gives a telecom consumer the option of registering his/her mobile number for not receiving/blocking unsolicited commercial calls / SMSs. The consumer also has the option to register his number to be accessible to telemarketers of specific sectors The telecom service providers have to ensure that such unsolicited calls/SMSs be blocked to the registered number with a specific time frame. In case the call/SMSs aren't stopped the telecom consumer may register a complaint on specific toll free numbers.

- 14% of surveyed customers of Bharti Airtel have registered their number for not receiving / blocking unsolicited commercial calls / SMSs, being the highest amongst all the service providers.
- 95% of the customers of Bharti Airtel who had registered their number for not receiving / blocking unsolicited commercial calls / SMSs were satisfied with the effectiveness of the same. In case of Tata 88%, in case of Reliance 80% and in case of BSNL 72% of the customers are satisfied with the effectiveness of blocking of unsolicited commercial calls.
- Around 6 16% consumers from all service providers have lodged a complaint in case the unsolicited call/SMS had not stopped in spite of registration.

- 78% of the customers of Tata and Airtel who had lodged a complaint were satisfied with the ease of lodging a complaint in case the unsolicited call/SMS had not stopped in spite of registration being highest among others.
- In case of satisfaction with action taken, BSNL is on the top followed by Airtel, Tata and Reliance.

Table 5.1: Assessment of Telecom Commercial Communications Customer Preference Regulation

Particular	BSNL	Tata	Reliance	Bharti Airtel
Number registered for not receiving / blocking unsolicited commercial calls / SMSs	9%	9%	9%	14%
Customers satisfied with the effectiveness of blocking of unsolicited commercial calls	72%	88%	80%	95%
Registered a complaint, in case the unsolicited call/SMS have not had not stopped in spite of registration for the same	16%	9%	6%	6%
Customers satisfied with the ease of lodging the complaint	67%	78%	67%	78%
Customers satisfied with the action taken on the complaint	87%	67%	67%	78%

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

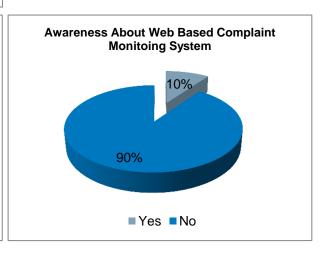

5.1.2 Telecom Consumers Complaint Redressal Regulations, 2012

As per the Telecom Consumers Complaint Redressal Regulation there are three grievance redressal

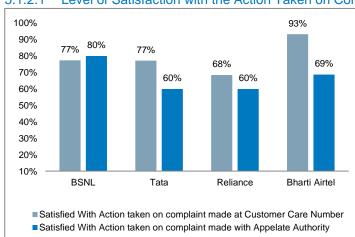

mechanisms a consumer can use to register their complaints which include the Toll Free Consumer Care Number, Appellate Authority for filing appeal in cases not satisfied with redressal of complaints and Web Based Complaint Monitoring System. The awareness about the toll free consumer care number is the highest with more than 97% of the total surveyed sample being aware about it. About 9% of the total respondents were aware about the Appellate Authority while 10% of the respondents were aware about the Web Based Complaint Monitoring System.

5.1.2.1 Level of Satisfaction with the Action Taken on Complaints

■ 57% of surveyed customers of Tata have registered a complaint with the Toll Free Consumer Care number, being the highest amongst all the service providers. On the other hand Bharti Airtel has the least percentage of surveyed consumers, 54%, who have registered a complaint on Toll Free Consumer Care number.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

- 77% of the customers of Tata & BSNL and 93% of Bharti Airtel who had registered a complaint with the Toll Free Consumer Care number were satisfied with the action taken on it. However the satisfaction level on action taken on complaint registered on toll free number in case of Reliance 68%.
- Very few (less than 2%) of surveyed customers have registered a complaint with the Appellate Authority.
- The satisfaction level is higher in case of BSNL followed by Bharti Airtel, Reliance and Tata with respect to action taken on complaint made with Appellate Authority.

Table 5.2: Assessment of Telecom Consumer Protection Regulation

Particular	BSNL	Tata	Reliance	Bharti Airtel
Made complaint to the toll free Consumer Care Number	55%	57%	56%	54%
Customers satisfied with the manner in which complaint was addressed to such as intimation of docket number and likely time for redressal of complaint, intimation of action taken on the complaint	77%	77%	68%	93%
Filed any appeal with the appellate authority	0.94%	1.87%	1.84%	1.50%
Customers satisfied with the manner in which appeal was addressed to such as acknowledgement of appeal, intimation of decision taken etc.	80%	60%	60%	69%

5.2 Cellular Service

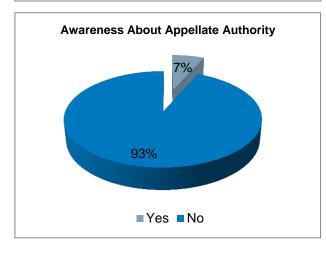

The assessment of TRAI regulations specific to the cellular service is as under

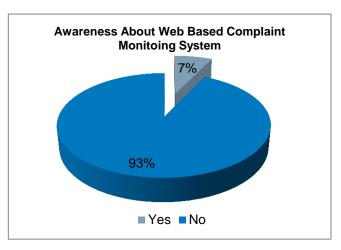

5.2.1 Telecom Consumers Complaint Redressal Regulations, 2012

As per the Telecom Consumers Complaint Redressal Regulation there are three grievance redressal

mechanisms a consumer can use to register their complaints which include the Toll Free Consumer Care Number, Appellate Authority for filing appeal in cases not satisfied with redressal of complaints and Web Based Complaint Monitoring System. The awareness about the toll free consumer care number is the highest with more than 96% of the total surveyed sample being aware about it. 7% of the total respondents were aware about the Appellate Authority while 7% of the respondents were aware about the Web Based Complaint Monitoring System.

5.2.1.1 Level of Satisfaction with the Action Taken on Complaints

- Between 32-51% of surveyed customers from each service provider have registered a complaint with the Toll Free Consumer Care number. More than 70% customers are satisfied against the action taken.
- Very few (less than 2%) of customers surveyed have lodged complaint with Appellate Authority.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

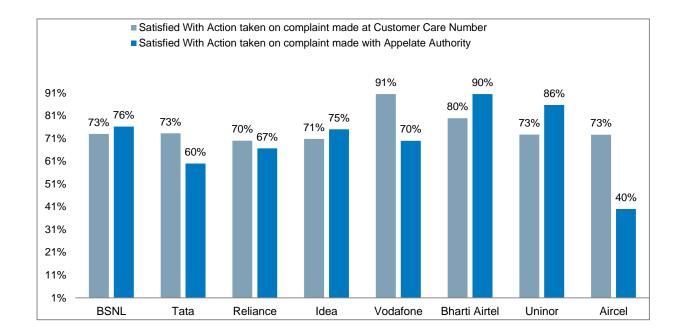

Table 5.3: Assessment of Telecom Consumers Complaint Redressal Regulations

Particular	BSNL	Tata Tele	Reliance	Idea	Vodafone	Bharti Airtel	Uninor	Aircel
Made complaint to the toll free Consumer Care Number	32%	47%	51%	35%	49%	49%	41%	31%
Customers satisfied with the manner in which complaint was addressed to such as intimation of docket number and likely time for redressal of complaint, intimation of action taken on the complaint	73%	73%	70%	71%	91%	80%	73%	73%
Filed any appeal with the appellate authority	1.97%	1.41%	0.84%	0.37%	1.87%	1.97%	1.97%	0.47%
Customers satisfied with the manner in which appeal was addressed to such as acknowledgement of appeal, intimation of decision taken etc.	76%	60%	67%	75%	70%	90%	86%	40%

5.2.3 Telecom Consumers Protection Regulations, 2012

As per the Telecom Consumers Protection Regulations, 2012 every service provider has to, immediately on the activation of a voucher provide through SMS to the pre-paid consumer details such as amount charged, processing fee, taxes deducted, title of the plan, validity of the plan etc. The regulations also makes it mandatory for the service provider to immediately after a specific usage such as making a call, activation of value added services or internet data usage, send the customer details such as duration of call, charges deducted, balance in account etc.

More than 70% of the customers from all service providers are satisfied with the information, received through SMS at the time of activation of various vouchers. Uninor has the highest level of satisfaction of 84% while only 70% of the surveyed Reliance consumers were satisfied with the information, received through SMS at the time of activation of various vouchers.

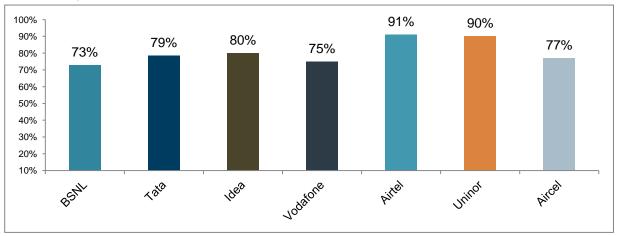

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

In case of information provided through SMS after every usage, such as duration of call, charges deducted, balance in account etc., more than 76% customers of all the service providers were satisfied.

5.2.3.1 Consumers satisfied with the timely receipt and completeness of the item-wise usage bill on request

Few pre-paid customers have requested an item-wise usage bill for their connection. The percentiles of such customers are in the range of 1-2% for each service provider. Amongst them the customers of Airtel have the highest satisfaction level with 91% of the customers being satisfied with the timely receipt and completeness of the item-wise usage bill.

Table 5.6: Assessment of Telecom Consumer Protection Regulation

Particular	BSNL	Tata Tele	Reliance	Idea	Vodafone	Bharti Airtel	Uninor	Aircel
Customers satisfied with the information, received through SMS at the time of activation of various vouchers, such as amount charged, processing fee, taxes deducted, title of the plan, validity etc.	82%	78%	70%	78%	79%	83%	84%	78%

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

5.2.4 **Telecommunication Mobile Number Portability per Port Transaction Charge** and Dipping Charge Regulations, 2009

As per the Telecommunication Mobile Number Portability per Port Transaction Charge and Dipping Charge Regulations, 2009 a consumer can retain his mobile telephone number when he moves from one Access Provider to another irrespective of the mobile technology or from one cellular mobile technology to another of the same Access Provider. The facility of retention of existing mobile telephone number despite moving to a new telecom service provider helps the subscriber maintain contact with his friends/clientele.

Satisfaction Level with the process of porting to another operator

Few surveyed consumers have opted for Mobile Number Portability (MNP) ranging from 1-11% of such surveyed tele consumers. 95% of surveyed consumers who had opted for MNP to Vodafone were satisfied with the process of porting, being the highest amongst all the service providers whereas in case of other service providers the satisfaction levels are in the range of 67-90%.

Table 5.7: Assessment of Telecommunication Mobile Number Portability Regulations

Particular	BSNL	Tata Tele	Reliance	Idea	Vodafone	Bharti Airtel	Uninor	Aircel
Utilized the service of Mobile number portability for changing your operator	6%	1%	1%	5%	11%	6%	5%	1%
Customers satisfied with the process of porting to another operator	85%	90%	75%	89%	95%	84%	88%	67%

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

5.3 Broadband Service

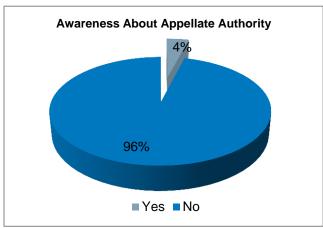

5.3.1 Telecom Consumers Complaint Redressal Regulations, 2012

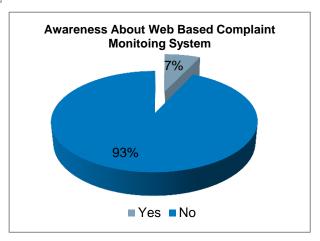

As per the Telecom Consumers Complaint Redressal Regulation there are three grievance redressal mechanisms a consumer can use to register their complaints which include the Toll Free Consumer

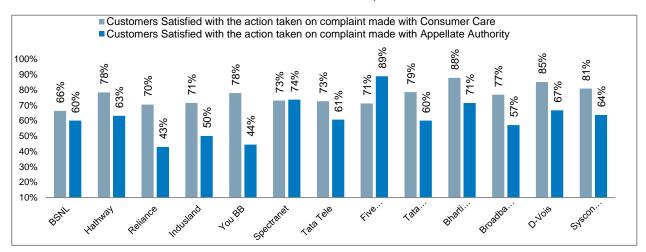

Care Number, Appellate Authority for filing appeal in cases not satisfied with redressal of complaints and Web Based Complaint Monitoring System.

The awareness about the toll free consumer care number is the highest with more than 97% of the total surveyed sample being aware about it. Around 4% of the total respondents were aware about the Appellate Authority while 7% of the respondents were aware about the Web Based Complaint Monitoring System.

5.3.1.1 Level of Satisfaction with the Action Taken on Complaints

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

- 88% of surveyed customers of Airtel have been satisfied with registering a complaint with the Toll Free Consumer Care number, being the highest amongst all the service providers. On the other hand BSNL has the least percentage of satisfied surveyed consumers who have registered a complaint with Toll Free Consumer Care number.
- More than 65% of the customers who have registered complaint with the Toll Free Consumer care number from all service providers are satisfied.
- 89% of surveyed customers of Five Network who have registered a complaint with the Appellate Authority are satisfied, being the highest amongst all the service providers. On the other hand 43% of the surveyed consumers of Reliance who registered least complaints with the Appellate Authority are satisfied.

Table 5.8: Assessment of Telecom Consumer Complaint Redressal Regulations

Particular	BSNL	Hathway	Reliance	Indusland Media	You Broadband	Spectranet	Tata Teleservices	Five Network	Tata Communication	Bharti Airtel	Broadband Pacenet	D-Vois	Syscon Infoway

5.3.2 Directions Related To Fair Usage Policy and Measurement of Broadband Speed

Between 81%-88% of the surveyed customers of BSNL, Hathway, Spectranet, Five Network, Tata Communication, Airtel, Broadband Pacenet, D-Vois and Syscon Infoway who had sought information under the fair usage policy are satisfied with the information given to them. However the overall satisfaction of the surveyed customers from all service providers is more than 74% with respect information provided under FUP.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

80% of the surveyed customers of Spectranet, Tata Communication, Airtel, D-Vois and Syscon Infoway were satisfied with the facility to measure the broadband connection speed provided by the service provider. However overall satisfaction with respect to facility to measure the broadband connection speed provided by each of the service provider surveyed is more than 70%.

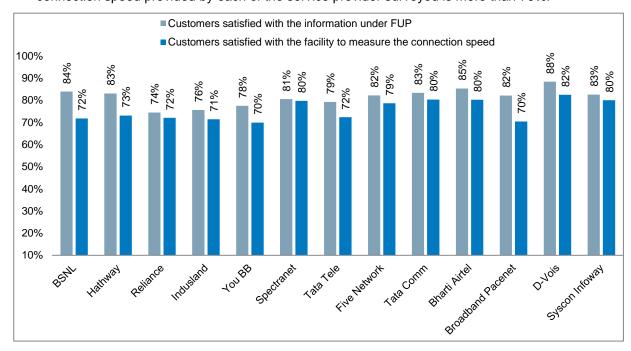

Table 5.9: Assessment Directions Related to Fair Usage Policy and Measurement of Broadband Speed

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

6 Conclusions & Recommendations

The key conclusions and recommendations on the basis of the survey conducted across all service categories and active service providers in the Rest of Maharashtra circle in the West Zone are listed as under.

6.1 Basic Wire-Line

6.1.1.1 Quality of Service Benchmarks

- The survey results show that all service providers have met the quality of service benchmarks for the provision of service, billing performance, Network and Overall Quality parameters. While in case of the other parameters, few of the service providers could not to meet the benchmarks. In many cases service providers have marginally missed to reach the benchmark.
- Help services is the only parameter wherein many service providers have failed to achieve the stipulated benchmark.
- Based on the qualitative inputs from field staff and general observation during the survey period the consultants have observed that the satisfaction levels for the maintainability and help services parameter are a bit lower as compared to satisfaction percentiles for other parameters.

6.1.1.2 Assessment of Various Regulations

- The level of satisfaction with the effectiveness of blocking of unsolicited commercial calls/SMSs is moderate across all service providers.
- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number. Few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal.

6.2 Cellular Mobile

6.2.1.1 Quality of Service Benchmarks

- The survey results show that all service providers have met the quality of service benchmarks for the provision of service, Billing Performance-Pre-Paid, Maintainability and Overall Quality parameter. While in case of the other parameters, few of the service providers could not to meet the benchmarks. In many cases service providers have marginally missed to reach the benchmark.
- The satisfaction levels for the Help Services parameter are comparatively lower across all service providers.
- The service providers have performed well in cases of rest of the benchmarks such as Billing Performance: Post-Paid and Network with most of the service providers meeting or nearing the benchmark on these parameters.
- Based on the qualitative inputs from field staff and general observation during the survey period the consultants have observed that the satisfaction levels for the help services parameter is a bit lower as compared to satisfaction percentiles for other parameters.

Assessment of (i) implementation and effectiveness of various regulations, directions and orders issued by TRAI in the interest of consumers and (ii) Customer Perception of Telecom Service Through Surveys

6.2.1.2 Assessment of Various Regulations

- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number. Few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal.
- The level of satisfaction with the effectiveness of blocking of unsolicited commercial calls is well achieved across all service providers with the satisfaction percentiles in the range of 80-95% for all the service providers.
- Very few pre-paid customers have requested for an item-wise usage bill for their connection. Based on the qualitative inputs from field staff the consultants have observed that the awareness amongst the pre-paid customer with reference to this option with them is quite low.

6.3 Broadband

6.3.1.1 Quality of Service Benchmarks

- All the service providers have met the benchmarks for the provision of service parameter while in the other parameter few of the service providers have missed the benchmark. Many service providers have marginally missed the benchmark on many parameters.
- The satisfaction levels for the Help Services and Network parameters are comparatively lower as compared to other parameters.

6.3.1.2 Assessment of Various Regulations

- With reference to the grievance redressal mechanism the consumers are mainly aware of the toll free consumer care number. Very few consumers are aware of the Appellate Authority and the Web Based Monitoring System as a mechanism for grievance redressal and efforts should be made in generating awareness with respect to Appellate Authority and Web Based Monitoring System.
- The level of customers being satisfied with the manner in which their complaint with the toll free consumer care number was addressed is moderate.
- Customer satisfaction levels with respect to the information provided by the service provider under the fair usage policy (FUP) and the facility to measure the broadband connection speed provided by the service provider are more than 80%.
